

Quality Engineer

About Us:

Since 2008, boutique restoration house, Singer Vehicle Design, based in Sun Valley, California, has been sharing its obsession to celebrate the Porsche 911 – and with more than 100 commissions globally delivered to date, that obsession has been mastered through the craftsmanship of its artisan team and the ability to envision its clients' desires to reimagine the ultimate bespoke air-cooled 911. Through the highest levels of creativity, performance, engineering and technology, Singer has become THE symbol of why “everything is important.”

Job Description:

Singer Vehicle Design is looking for a Quality Engineer who will report directly to the Manager of the Quality Department, to create the standards and processes Singer uses to restore and certify our restorations, and to manage quality issues. This full-time position will be based at the Singer offices in Sun Valley, CA. This role also includes competitive vacation and health benefits.

Key Responsibilities:

- Create, Update, & Implement quality standards
- Track and manage recurrent quality issues and root causes analysis – Manage corrective and preventive actions
- Improve Quality validation and inspection processes – Stage and Final inspections
- Improve quality tools and the car passport used to record all issues on a given car
- Prepare and communicate inspection reports / implement KPI's
- Be able to perform quality inspections
- Improve the part rejection process
- Work with the assembly team to reduce instances of damage during restoration

Job Requirements:

- Bachelor's Degree in Mechanical Engineering or relevant field
- 3 – 5 years of related experience
- Experience liaising with high level individuals, executives, company associates, and vendors
- Team-oriented, strong ability to multi-task and work in a fast-paced environment and to multiple deadlines
- Extremely strong communication and interpersonal skills; both oral and written
- Strong organizational skills with the ability to prioritize effectively and efficiently
- Experience in quality inspection or/and quality engineering
- Experience in car industry or aerospace industry
- Highly agile and must be willing to accept change

- Proven experience and track record in building long-lasting relationships with suppliers, vendors, and partners.
- This person must have the right to work in the U.S.
- Proficient in using MS Excel, Outlook, PowerPoint, and Word.
- 1-3 years of Process Engineering experience (including RCA, CAPA, and procedure writing) preferred

Salary:

- Commensurate with experience
