

Auto/Composite Body Technician 1

Singer Vehicle Design – Sun Valley, CA

About Us:

Since 2008, boutique restoration house Singer Vehicle Design, based in Sun Valley, California, has been sharing its obsession to celebrate the Porsche 911 – and with more than 100 commissions globally delivered to date, that obsession has been mastered through the craftsmanship of its artisan team and the ability to envision its clients' desires to reimagine the ultimate bespoke air-cooled 911. Through the highest levels of creativity, performance, engineering, and technology – and now, partnerships with iconic and globally recognized organizations like Williams Advanced Engineering -- Singer has become THE symbol of why "everything is important."

This full-time position in our Sun Valley office, includes competitive vacation and health benefits.

Job Title: Auto/Composite Body Technician 1

The Auto/Composite Body Technician 1 position requires an experienced individual with the ability to do all body work, adjust and align body panels, fabricate, and repair automotive chassis. The candidate should have some experience working with composites such as carbon fiber and fiberglass. The individual must be an effective communicator and team player with the ability to multitask. They should be meticulous of their work and always strive to improve. This candidate must be able follow work instructions while maintaining both accountability and accurate work documentation through a start to finish composite bodying process.

Duties and Responsibilities:

- Align/trim composite & metal body panels to desired gaps and flush
- Adjust and repair vehicle chassis as necessary to fit panels
- Bond composite panels to vehicle chassis
- Work to build schedule, ensuring there are no delays in production cycle
- Communicate status of vehicle progress clearly to Bodying supervisor

Minimum Auto/ Composite Body Technician Qualifications:

- High school graduate or equivalent
- Minimum (3) years of Autobody experience
- General automotive knowledge
- General knowledge of composite (carbon fiber and fiberglass) experience
- Effective communication and organization
- Able to work 40+ hours per week
- Able to work overtime as needed

Preferred Auto/ Composite Body Technician Qualifications:

- Prior Automotive Restoration experience
- Composite/ fiberglass repair

Overall Work Characteristics:

- Ability to work in a shop environment
- Maintain clean, safe, and orderly work area
- Team player who takes direction and instructions
- Must be a detail-oriented person with a “can do” positive attitude
- Must possess excellent written and verbal communication skills, expressing ideas clearly and actively listening to thoughts and ideas of others
- Basic understanding and use of the MS Office Suite
- Operation of company vehicles and industrial machinery in support of providing completed company products
- Can assist other body technicians and co-workers as requested
- Ability to detect errors and correct through proper procedures and channels
- Assist in special projects as required

IMPORTANT NOTICE:

This position is not limited to those duties in the job description. Duties and responsibilities can be changed, expanded, reduced, or deleted to meet the business needs of Singer Vehicle Design. The duties listed above are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to the position.
