

Welder / Fabricator (Chassis)

Singer Vehicle Design – Sun Valley, CA

JOB TITLE: Autobody Welder/Fabricator

Position requires an experienced individual with the ability to weld, fabricate and repair automotive chassis. The desired candidate must be an effective communicator and team player with the ability to multitask. This candidate must be meticulous in their work and always strive for improvement. The candidate must be able follow work instructions while maintaining both accountability and accurate work documentation through a start to finish chassis fabrication process.

Core Welder/Fabricator Requirements: (Certified Welder)

- High school graduate or equivalent, minimum (5) years of welding & fabrication experience and applicable certifications (or the ability to obtain certifications within 1 year of satisfactory employment)
- Minimum (3) years of Autobody experience (any prior automotive restoration preferred)
- General automotive knowledge
- General knowledge of fabrication, machining/ welding equipment setup, process and maintenance.
- Ability to consistently and precisely TIG weld Stainless Steel, Aluminium, and Mild Steel
- Ability to MIG weld
- Ability to form and weld sheet metal of various gauges and materials
- Interpretation of manuals, design specifications, blueprints, SAE and metric drawings
- Perform standard shop math: add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals.
- Use and knowledge of all core welding/ fabrication tools to weld, cut, trim, or scarf metal objects to dimensions, as required by purchase or work orders
- Inspection of both raw material and finished product for conformance to specifications.
- Effective communication and organization

Specific Welder/Fabricator Functions:

- Knowledge and ability to work with various gauges of sheet metal and materials
- Knowledge of filler material and required gas applications for various steel alloys, aluminium, and some exotic materials
- Working knowledge of fixturing and weld set up parameters (amps, volts, etc.).
- Familiarity of conventional and precision measuring instruments
- Accurately cut and bend material to required specs
- Finish grinding applications using both manual and power tools
- Position, clamp and jig of components preparatory to welding
- Identify and repair cracks/ fill holes in material using inspection equipment and processes

Overall Work Characteristics:

- Ability to work in a shop environment
- Ensure work area is always clean and safe
- Team player who takes direction and instructions
- Able to work 40+ hours per week
- Must be a detail-oriented person with a “can do” positive attitude
- Must possess excellent written and verbal communication skills, expressing ideas clearly and actively listening to thoughts and ideas of others
- Basic understanding and use of the MS Office Suite
- Operation of company vehicles and industrial machinery in support of providing completed company products
- Can assist other Fabricators and Welders as requested
- Ability to detect errors and correct through proper procedures and channels
- Assist in special projects and set up of fixtures as required
